

Introduction of National United University

National United University was founded in 1972. After years of reforms and upgrades, on a solid foundation, it has worked hard for 49 years and cultivated many excellent senior professionals. NUU actively develops as a comprehensive teaching-oriented university with characteristics. There are more than 70,000 graduates, and 94% of alumni successful employment. The undergraduate students and graduate students are both recognized as the top 20 enterprises' favorite universities and are the only university in Miaoli to promote industry-university cooperation, vocational training, and promotion of education.

There are 6 colleges, 19 academic departments (including 15 master Programs), 1 bachelor degree program for indigenous peoples, 1 independent institute, and 1 Ph.D. Program. The six colleges are Science & Engineering, Electrical Engineering & Computer Science, Management, Hakka Studies, Humanities & Social Science, and Design. There are two campuses located at Erpingshan and Bajia, and the school also provides free shuttle buses between the two campuses for the ease of teachers and students. The two campuses have a total area of about 77 hectares; the school is adjacent to the Science and Technology Town, Hsinchu, and heads south to Taichung area. It is about 10 to 15 minutes away from the National Highway No. 1, No. 3 Interchange and Taiwan Railway Miaoli Station and takes about 15 to 20 minutes to the high-speed rail Miaoli station. The Bajia Campus was fully opened in 2014. The new Bajia campus with pleasant scenery and a magnificent landscape is 10 times larger than the old Erpingshan Campus. It is also suitable for living and learning. National United University has earned a world ranking top 9% and Taiwan ranking top 20% according to the Center for World University Ranking (CWUR) announcement in 2019-2020.

NUU has established more than 170 sister schools with Europe, the United States, and Asia. Every year, outstanding students are selected to go to the United States, Japan, South Korea, France, Malaysia, and other regions for semester exchanges and overseas internships to increase students' international vision and international mobility. Also, it has many international students to come and study as exchange students or interns. There are several featured laboratories, such as Green Energy Materials Laboratory, Silver Health Smart House, Intelligent System Engineering Laboratory, and so on. In addition, there are many clubs with rich attributes such as academics, entertainment, sports, service, autonomy which bring you a diverse.
